Prices:

Prices for all litters are \$1650-\$1800 unless other arrangements have been previously been made with Grizzly Kennels. Pet quality, sold only limited registration. (Not for breeding purposes)

Our guarantee:

We guarantee our pet quality beautiful puppies to be free of life-threatening genetic defects limited to eyes, heart and hips that will only affect his/her life as a PET for 24 months.

Due to the varying kinds of food and different environmental condition the puppies come in contact with, we will not guarantee their health though unless they are given NuVet Plus® for those first two years. Failure to do so makes the guarantee null and void. If you find a different supplement which we agree is of the same caliber of Nuvet Plus, then you may give that in replacement for those two years. The guarantee would not in that case be null and void. Or, if you feed your dog a completely raw diet (mostly meats) you don't have to use Nuvet at all.

Grizzly Kennels Contract

Defective puppies will be replaced by with another puppy of equal or greater value after proof of defect from your vet, and after he/she is shipped back to breeder. *If said puppy is transferred to another owner the contract is null and void. Buyer assumes all veterinary expenses.

Puppy will be replaced as soon as we have on available. Waiting time may take anywhere from the present to 2 years.

*We personally can and will take care of the problem ourselves. However, if you don't want to give the dog back for another puppy then there is not a cash refund when you keep the puppy.

We have done all we can to ensure life-threatening, genetic issues with your pup won't happen. But dogs are living, breathing beings and there is never 100% chance that nothing ever could possibly happen or go wrong.

Your Agreement

I _____ Agree to take full responsibility of my new puppy. I will not chain him/her up at any time. The puppy/dog will have access to fresh water at all times and fed a quality pet food that is recommended by Grizzly Kennels (a raw diet of meat, bones, eggs, certain veggies/fruits etc. is the best if you can) I will not feed my dog a pet kibble with grains such as corn, wheat or soy. (GMO) I will make sure my puppy/dog is not around dangerous pesticides or chemicals, and will avoid taking him/her places where there are harmful diseases that could be picked up from other animals. I will not let my dog get overweight because I realize that many joint problems arise when a dog is at an unhealthy weight. I understand that this dog is now part of the family and will not be treated with abuse or negligence. I will always have a kennel/dog house/covered area, etc. where he/she can go to get out of the sun or cold (that is, if you have your pup out-doors during the day or at night.)

I will contact Grizzly kennels and/or my vet if anything goes wrong with my dog's health. For the first 2 years, I will prevent him/her from jumping up into or out of, taller cars or trucks. I will not let him/her jump on hind legs or run excessively. I understand that young pups going up and down stairs all the time can also cause hip problems in the future, so it's something I'll prevent my pup from doing until he/she is fully grown and developed.
